DETAILED ACTION

Allowable Subject Matter

Claims 1-34 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 7, 14, 21, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a wavelength monitor comprising either a Michelson interferometer optical system or a Mach-Zehnder interferometer optical system, in combination with the rest of the limitations of the above claims.

With further regard to the claims, the applicant's arguments dated August 30, 2004, lay out detailed reasons for the allowability of the claims in view of the prior art. In particular, the prior art fails to disclose the use and positioning of slits in front of each photodetector, the slits being positioned to adjust a phase difference of the signals from each photodetector, in combination with the rest of the elements and limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420. The examiner can normally be reached on Monday through Friday.
